## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3,6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Krenzer.

Krenzer teaches a diamond dressing wheel component including at least one interrupted cutting outer surface, 34, which are a plurality of tips, and at least two additional dressing wheel components including flat grinding surfaces, (the flat spaces between the grinding teeth), adjacent to and surrounding the interrupted cutting outer surface, and the grinding surfaces being suitable for dressing a grinding wheel, (col. 4, lines 3-55).

### ***Allowable Subject Matter***

Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3723

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bocker was cited as another example of a dressing wheel.
